Professional Experience

FACTSET RESEARCH SYSTEMS

Technical Program Manager (Automation, Cybersecurity, Platform Infrastructure, Content)

June 2022 - Present

- Acted as strategic advisor to the CISO, aligning leadership across Security to prioritize and execute key initiatives (e.g., IAM, GRC, and Network Security); managed program delivery, accelerating time-to-value by 30%
- Led budget planning, forecasting and rigorous tracking for a \$20M+ portfolio of projects and updated CTO leadership on spend status
- Led Disaster Recovery program focused on infrastructure and cybersecurity assurance, that also incorporated the integration of a new IT Service Management platform, resulting in total cost savings of \$10M by consolidating vendor contracts
- Championed the selection and implementation of ServiceNow, collaborating with diverse leaders and vendors to enhance operational efficiency, improve asset tracking by 40%
- Built, led, and trained a global team of PMs, building team capabilities to support critical infrastructure and security initiatives.

INDEPENDENT CONSULTANT

Principal Consultant (RPA)

May 2020 - May 2022

- Implemented RPA solutions for enterprise clients and built Centers of Excellence, achieving 40% reduction in manual effort through proven technical implementations
- Built independent consulting practice from ground up, driving business development, client acquisition, and delivery; established strategic partnerships and referral network achieving 100% client retention
- Designed and led the automation team for invoice management systems (Deltek, Pipedrive, Oracle) improving efficiency by 90%

NEURALIFY

Senior Consultant - IT Strategy & Operations

July 2018 - March 2020

- Managed and delivered successful client RPA implementations across multiple processes, acting as both the technical and business lead, resulting in higher client retention and additional follow-on sales.
- Drove client workshops, requirements gathering, and transition plans including creating Proof of Concepts (PoCs), Process Design Documents (PDDs), Solution Design Documents (SDDs) and runbooks for engineering and operational teams.
- Led technical solution demonstrations, client workshops, webinars, and user training sessions, showcasing RPA capabilities and thought leadership to drive user adoption and secure follow-on engagements

BROADRIDGE FINANCIAL SOLUTIONS

Programmer Analyst

Jan 2016 - July 2018

- Designed, developed and managed 60+ inbound and outbound Workday integrations, improving data accuracy by 25% and reducing manual reconciliation efforts by 30%, resulting in faster and more reliable HR and finance processes.
- Developed and optimized complex Workday API integrations using Workday Web Services (SOAP and REST), enabling secure, high-throughput data exchanges between Workday and external systems; implemented error-handling, token-based authentication, and custom XSLT transformations to support scalable, production-ready workflows

Non-Profit Work

SUCCESS ACADEMIES CHARTER SCHOOLS

IT Operations Manager - Digital Transformation

Dec 2020 - March 2023

- Built, led and mentored a team of Process Analysts and System Engineers for a newly created RPA COE team
- Owned and drove the RPA program and managed the automation roadmap, delivering 10+ automations leading to reduction in manual processing time and generated annual cost savings of \$500K across the organization.
- Led the automation team to transform legacy manual process of pulling data through SQL data and transferring to the NYC DOE Vendor Portal system to fully automated solution using Automation Anywhere resulting in savings of \$2M+ and 10 FTE
- Reduced software spend by automating license usage tracking to eliminate unused vendor software licenses leading to savings of \$1M+

Key Skills

Core Competencies	Commercial Acumen, Vendor Management, Tech Strategy, , Relationship Management, Team Building & Leadership, Software ProficiencyData Analysis, Process Improvement & Change Management, Budgeting & Estimating, Process Elimination, Roadmapping & Prioritization, Project Management
Tech Tools	ERP (SAP, Workday, Salesforce, Oracle, ADP), Automation (Automation Anywhere), APIs, Cloud (Windows RDP, AWS, VMware, Azure), Cybersecurity (IAM, Incident Response), Agile (Targetprocess, JIRA, Kanban, Confluence), SAAS, SQL, Content (EDM/DMS feeds), Budgeting (Capex, Opex, GAAP)

Education

Bachelors, Computer Science

Rutgers University
